“Migration Trails Across America”

Peggy Lauritzen

The safest and easiest way to move one's families may not have been the migration trails and roads that we have become most familiar with. Roads and trails are the “go-to” places we look at first when determining how our ancestors moved throughout America. However, there were other means of transportation available to them. Could your ancestor have traveled other by-ways?

Our Speaker: Peggy Clemens Lauritzen, AG, FOGS, has an amazing ability to bring laughter into the lives of her audience members. Peggy is a frequent lecturer at Family History seminars and has presented at Brigham Young University, and ICAPGen as well as teaching continuing education classes at community colleges and Ohio State University.
