“Mastering Digital Filing for Genealogists”

Cyndi Ingle

Every genealogist feels that digital filing is out of their control. It can be an overwhelming process to keep track of all of the documents, images, and files that end up on our computers and devices. How do we even start to tackle this virtual pile of filing? What tools and processes will work best for you? We will discuss all of this and how to maintain digital filing as we research.

Our Speaker: Cyndi Ingle, a genealogist for more than 43 years, is the creator of CyndisList.com and the author of numerous articles and three books. Cyndi is an expert in using technology for genealogy, research in the United States, and organizational methodology.
